CHALAMSETTY NIVAS KRISHNA

8328288043 | chalamsettynivas@gmail.com | GIT | LinkedIn | LeetCode | Portfolio

EDUCATION

Jain University, Bengaluru - B.TECH, CSE
CGPA : 8.12(till 6th sem) | Expected Graduation | 2027
Narayana College, Telengana — Intermediate - 83% | 2023
Indus Montessori EM School — Matriculation - 94% | 2021

SUMMARY

Computer Science undergraduate with a strong foundation in Java, JavaScript, Python, Data Structures & Algorithms, and full-stack web development. Passionate about building AI-powered and scalable software solutions, with hands-on experience in machine learning, healthcare applications, and modern web technologies.

TECHNICAL SKILLS

Programming Languages - JAVA | JAVASCRIPT | PYTHON |
Data Base - MySQL
Frontend: HTML | CSS | JAVASCRIPT | Rest APIs
Tools/Libraries- GIT HUB | VSCODE
Data Visualisation Tools - TABLEAU | Power Bi
PROBLEM SOLVING - DATA STRUCTURES AND ALGORITHMS | OOPS
DSA - Arrays | LinkedList | Stack | Queue

PROJECTS

1. Lung Cancer Detection and Characterization Using CNNs and Transfer Learning With VGG16 - (Oct 2024)

DOMAIN : Artificial Intelligence (AI) / Machine Learning (ML) in Healthcare – specifically Medical Image Processing and Computer-Aided Diagnosis.

This project develops an AI-based system for early lung cancer detection.

It uses Convolutional Neural Networks (CNNs) and Transfer Learning (TL) to analyze medical images. The system detects cancerous regions, classifies tumor types, and identifies size and location.

Achieved 94% classification accuracy on lung CT dataset using VGG16 transfer learning.
